## **THE RESIDENCE**

Serristori Palace is a Residence in Florence. It's a true jewel in the magical setting of Piazzale Michelangelo and the enchanting Arno embankments, just a few steps away from the Ponte Vecchio and Pitti Palace. From its balconies you can almost touch the major monuments of Florence: Santa Croce, the Uffizi Gallery, Palazzo Vecchio, the Duomo... the Renaissance at its most authentic, its history and culture, from the heights of a building which epitomises this atmosphere - this unique place in the world. Serristori Palace is a choice that offers you the opportunity of living in the heart of Florence.

## **THE APARTMENTS**

Like a precious jewel box, the building consists of 12 tastefully and exclusively furnished apartments. Each one is named for one of the marvels of Florence, a unique symbol of its exclusive interiors and functional spaces.

The many services provided, allow guests to rediscover the pleasure of living in a welcoming environment, where attention has been paid to the tiniest detail; and all this is accompanied by the sophisticated aromas and flavours of the dishes that can be prepared in your own kitchen, offering a lifestyle based on small everyday pleasures.

## **COMMON AREAS AND MEETING ROOM**

A multipurpose environment has been created in the old cellars of the building: a charming meeting room for company conferences or work meetings, and a room for relaxation and recreation, with a TV and a small bar, as well as a reading room, where you can enjoy the company of a good book in peace.

A range of pleasures for those who appreciate quality of life, in all its forms...
